

Privacy Policy

How the CHHS DECA Resource Hub handles personal information and submitted work

Effective and last updated: July 12, 2026

<https://chhsdeca-gkmjm4ge.manus.space>

Privacy at a glance

The Site collects only the information needed to provide accounts, resources, submissions, and feedback. It does not sell personal data or use it for targeted advertising. Users should avoid uploading sensitive personal information.

1. Scope

This Privacy Policy describes how the CHHS DECA Resource Hub (“we,” “us,” or “our”) collects, uses, discloses, retains, and protects information when you use <https://chhsdeca-gkmjm4ge.manus.space> and related features, accounts, resources, and AI-assisted educational tools (collectively, the “Site”).

This policy applies to information handled by the Site. It does not apply to third-party websites, official DECA systems, school district systems, or services that are linked from the Site and operate under their own privacy policies.

2. Information We Collect

A. Information you provide

- Account and profile information, such as name, email address, username, password or authentication identifier, school, chapter, role, graduation year, and profile preferences.
- Competition and educational submissions, such as written-event documents, speech or presentation recordings, slides, practice answers, rubrics, notes, revisions, scores, and feedback requests.
- Chapter or workspace information, such as team membership, advisor assignments, resource contributions, event selections, and progress information.
- Communications, such as support messages, feedback, reports, survey responses, and requests to exercise privacy rights.

B. Information collected automatically

- Device and browser information, such as IP address, browser type, operating system, language, approximate region derived from IP address, and device identifiers.
- Usage information, such as pages viewed, features used, links clicked, timestamps, referring pages, error logs, and interaction with educational tools.
- Cookies and similar technologies needed for login, security, preferences, performance, and - if enabled - basic analytics.

C. Information from schools, chapters, or service providers

If you join through a school, chapter, advisor, or single-sign-on provider, we may receive information needed to create or connect your account, confirm membership, or assign you to a workspace. Service providers may also return technical, moderation, or output information needed to operate a requested feature.

3. Information You Should Not Submit

The Site is not designed to collect Social Security numbers, government identification numbers, financial account or payment-card information, medical records, biometric identifiers, precise geolocation, confidential disciplinary records, or other highly sensitive information. Do not upload these categories unless a feature specifically requests them and clearly explains why they are needed.

Competition essays, speeches, and documents sometimes contain personal stories or information about other people. Review submissions before uploading, remove unnecessary identifying details, and obtain permission before sharing another person's private information.

4. How We Use Information

- Provide, operate, maintain, personalize, and improve the Site.
- Create and manage accounts, chapters, teams, and educational workspaces.
- Process submissions and generate requested analysis, feedback, estimated scoring, or recommendations.
- Save progress, display history, and support collaboration with users, advisors, or chapter administrators.
- Respond to questions, support requests, reports, and privacy requests.
- Protect the Site, investigate abuse, enforce rules, prevent fraud, and maintain security.
- Understand feature performance using aggregated or de-identified information.
- Comply with legal obligations and protect users, the Site, and others.

5. AI and Automated Processing

When you use an AI-assisted feature, the Site may send the content you submit, relevant rubric or context, and technical instructions to an artificial-intelligence or document-processing service provider. The provider returns an output that the Site displays or stores for you. Submitted content may therefore be processed on systems operated by third parties.

AI outputs are generated automatically and may be inaccurate. The Site does not use automated scoring to make official school, disciplinary, employment, admissions, or competition decisions. A teacher, advisor, judge, or other qualified person should independently review important decisions.

We authorize AI and processing providers to use submitted information only to provide, secure, and support the service for us, subject to the applicable provider agreement and settings. We do not authorize independent advertising based on student submissions. Users should not upload confidential or highly sensitive information to AI-assisted features.

6. How Information Is Disclosed

Service providers

Information may be disclosed to vendors that help provide hosting, authentication, database storage, analytics, email, security, file processing, and AI features. The Site is currently accessible through a Manus-hosted domain, and hosting or infrastructure providers may process technical information as necessary to deliver the Site. Providers are permitted to process information only for authorized services and legal obligations.

Schools, chapters, teams, and advisors

If you join a chapter, class, team, or advisor-managed workspace, designated administrators may be able to view your profile, membership, activity, submissions, feedback, and progress within that workspace. Information you intentionally post to a shared area may be visible to other members of that area.

Legal, safety, and organizational reasons

Information may be disclosed when reasonably necessary to comply with law or legal process; protect the rights, safety, and security of users or others; investigate abuse; enforce Site rules; or respond to an emergency. If the Site is transferred to a new operator, information may be transferred as part of that transition, subject to this policy and applicable law.

At your direction

We may disclose information when you ask us to, consent to the disclosure, export content, share a submission, join a workspace, or use a feature that clearly involves another service or person.

7. No Sale of Personal Data or Targeted Advertising

We do not sell personal data for money. We do not use personal data from the Site for targeted advertising, and we do not knowingly sell or share the personal data of users under 18 for targeted advertising. If these practices change, this policy will be updated and any legally required choices or consent mechanisms will be provided before the change takes effect.

8. Cookies and Analytics

The Site may use essential cookies or local storage to keep users signed in, remember settings, protect accounts, and maintain sessions. If analytics are enabled, they may collect limited usage information to help understand performance and improve features.

Browser settings may allow you to block or delete cookies. Blocking essential cookies may prevent account login or other features from working. The Site does not currently promise to respond to browser “Do Not Track” signals because there is no universally accepted standard for those signals.

9. Data Retention

We retain personal information for as long as reasonably necessary to provide the Site, maintain accounts, fulfill the purposes described in this policy, resolve disputes, protect security, and comply with law. Retention periods vary depending on the type of information and how the Site is used.

When an account or submission is deleted, copies may remain temporarily in backups, logs, or disaster-recovery systems. We may retain aggregated or de-identified information that can no longer reasonably identify a person. A school or chapter may also retain exported copies under its own policies.

10. Security

We use reasonable administrative, technical, and organizational safeguards designed to protect information, such as access controls, authenticated accounts, encrypted network connections, and limited provider access. No website, transmission method, or storage system is completely secure, so we cannot guarantee absolute security.

Protect your password, use a unique password, sign out on shared devices, and report suspected unauthorized access through the Site’s contact method.

11. Children and Teen Users

The Site is intended for users age 13 and older. We do not knowingly collect personal information online from a child under 13 without the consent and procedures required by applicable law. A child under 13 should not create an account or submit personal information.

If we learn that personal information was collected from a child under 13 without appropriate authorization, we will take reasonable steps to delete it. A parent or guardian who believes a child under 13 submitted information may contact us through the Site.

Users ages 13 through 17 should use the Site with the permission and supervision of a parent, guardian, teacher, or advisor. We encourage teen users to limit personal details in submissions and avoid sharing private information about themselves or others.

12. School and Education Records

The Site is not intended to replace a school district's approved student information system or permanent education-record repository. Schools, chapters, and advisors are responsible for determining whether their use of the Site complies with their policies and applicable student-privacy requirements.

Do not upload official grades, student identification numbers, individualized education records, disciplinary records, or other protected school records unless the applicable school has specifically approved the use and appropriate protections are in place.

13. Your Choices and Privacy Rights

Depending on where you live and subject to legal exceptions, you may have the right to request access to personal data, correction of inaccurate data, deletion, a portable copy, or information about how data is used and disclosed. You may also have the right to opt out of certain sales, targeted advertising, or profiling. The Site does not currently sell personal data or use it for targeted advertising.

To make a request, use the contact method published on the Site and write "Privacy Request" in the subject line. Describe the request and identify the account or email involved. We may ask for information reasonably necessary to verify identity and authority. A parent or legal guardian may submit a request for a minor, and an authorized agent may act where permitted by law.

If a request is denied, you may appeal by sending a new message with "Privacy Appeal" in the subject line and explaining why you believe the decision should be reconsidered. We will respond within the period required by applicable law. You will not be discriminated against for exercising a privacy right.

14. International Users

The Site is operated for users in the United States. If you access it from another country, information may be processed in the United States or other locations where service providers operate. Those locations may have different data-protection laws than your home country.

15. Third-Party Links and Services

The Site may link to official DECA resources, school pages, videos, cloud documents, or other external services. We do not control and are not responsible for the privacy practices of those third parties. Review their policies before submitting personal information.

16. Changes to This Policy

We may update this Privacy Policy to reflect changes in the Site, service providers, legal requirements, or privacy practices. The "last updated" date will be changed when revisions are posted. Material changes may also be announced through the Site or account contact information before they take effect when required.

Contact Us

Questions about this Privacy Policy may be submitted through the contact method published on the Site at <https://chhsdeca-gkmjm4ge.manus.space>. Please use the subject line "Legal Policy Question" (or "Privacy Request" for a privacy-rights request) and include enough information for us to respond and verify the request.
